# Rosetta® Step Collection

The classic look of weather-hewn natural stone steps lives on in our new Rosetta® Step Collection. Made from an optimal blend of cement, aggregates and high-quality, long-lasting pigments, each step is cast in molds using a process that carefully replicates the intricate textures, colors, and detail of natural stone.

- Offered in six shapes for a realistic stone appearance
- Each shape is consistent in texture, size, and height, simplifying selection and installation
- The natural tones and colors of our Fieldstone Blend beautifully complement our line of walls and pavers
- Ideal choice for staircases with our wall systems, free-form steppers on slopes, or pathway stones
- Lasting durability with strength greater than 4000 psi
