NEW ENGLAND DURABILITY YOU CAN COUNT ON

Our colorful landscape products are more than just beautiful — they’re hardworking too!

Our pavers and walls are manufactured to exact industry standards using specialized equipment and a custom concrete mixture formulated to withstand New England’s harsh winter climate. Our pavers are made to exceed both U.S. and Canadian standards for the highest strength and durability anywhere.

LIFETIME WARRANTY

We back our pavers and walls with our name and a Lifetime Warranty on the structural integrity of our products used in residential applications. Product that proves to be defective by failing to meet ASTM industry standards will be replaced without cost. We will do our best, but color, texture and finish of replacement product may not match the original, and cost of labor is not included. Proof of purchase is required. All warranty claims must be made prior to removal or disposal of product in question and be approved in writing. Please note, color variance and efflorescence do not constitute a warranty claim. Other exclusions apply. Please visit www.IdealConcreteBlock.com/warranty for complete details.

Come Home to Style

Your home reflects your unique style and taste. From a welcoming walkway... impressive driveway... relaxing garden patio... an outdoor room complete with barbecue and cozy fire pit... sun-splashed pool deck... stylish landscape walls... a backyard paradise to enjoy with family and friends... we have the products that suit your style, taste and budget.

Pavers by Ideal walls, steps and pavers can expand your living space. Our products come in a variety of shapes, styles, colors, textures and finishes. We give you a wide range of eye-catching colors inspired by the deep, rich hues authentic to New England. Best of all, an outdoor area can be created without the need to undertake expensive renovations to your home’s structure and can be scaled to fit any budget.

You can rely on Ideal. We are a 4th generation family-owned business that has made New England home for over 90 years. As one of the first companies in the United States to manufacture concrete pavers, we have sold millions of square feet of pavers and countless walls throughout New England! You can feel confident using our products. You might say they are time tested and backed with our Lifetime Warranty. And while warranties are good, our name is better! You see we have withstood the test of time, since 1923.

In designing our Come Home to Style catalog, we conscientiously chose to depict the style and setting of homes found throughout New England. We would like to thank the scores of homeowners who graciously allowed us to photograph their homes and hope that the pictures and images inspire you to create a home that you, friends and family can enjoy for many years to come.

From our family to yours, we are pleased to offer you products that welcome you to Come Home to Style!

~The Burgoyne Family

PAVERS

COLOR, SHAPE, TEXTURE & PATTERNS
You have so many great choices, all backed by our Lifetime Warranty.
MEANDERING PATHS.  
WELCOMING DRIVEWAYS.  
OUTDOOR SANCTUARIES.

It’s possible with Pavers by Ideal.

Unlike asphalt, cast-in-place concrete and stamped patterned surfaces, our pavers provide a mortarless pavement that forever remains free of cracks. They are unaffected by oil and gas spills and, if necessary, can be lifted and reinstated without a trace of an unsightly patch that other paving materials leave behind. Over time dirt, stains and wear are inevitable and affect ALL types of pavements. This is where concrete pavers are superior to other types of pavements because with a little maintenance, you can keep the surface looking beautiful for a lifetime. Simple measures can easily clean dirt, grime, moss and algae, remove rust and oil stains, prevent weeds and ants and even repair areas that may have settled in the long run.

- Easy to install and are skid and slip resistant
- Shapes, designs and textures complement any architectural style
- Our pavers are stronger and will out-perform traditional paving materials
- Unaffected by oil and gas spills
- Repairable without a patch
- Add value and lasting beauty to your home
- Comparable in cost to cast-in-place concrete, stamped pattern asphalt and concrete and composite wood decks
WELCOMING WALKWAYS
Inviting paths to your doorstep and beyond.

COME HOME TO STYLE

We have the color, shape, and texture that matches your style.
ANDOVER COLLECTION™

For years, patios of natural cut stone were found only in the wealthiest homes. We have changed the rules with our Andover Collection, featuring larger-scale pavers that can create a variety of timeless patterns with the classic look of natural stone. The cleft and contours of our Andover Collection have the look and feel of cut stone with the dimensional stability, cost and installation advantages of concrete pavers. Our Collection consists of a 5-piece set, comprised of 3 sizes scaled to modular dimensions, and Andover GrandStone and Andover 5511, which are available separately. GrandStone may be used alone, or may replace pavers within the Set-Stone Pattern.

FEATURES

■ Pronounced cleft and sculpted surface
■ 2 ¾" thickness for improved flexural strength
■ Set-Stone Pattern utilizes every stone in the set with an easy-to-follow pattern that gives the appearance of a random layout - simplifies placement, saves time and eliminates waste

Dimensions and Coverage

| 5-Piece Set |
|-----------------|-----------------|------------------|------------------|-----------------|
| 2 pcs/set       | 5 1/2" x 11"    | 2 3/4" thick     | 3.8 sf/set       | 76 sf/cube      |
| 2 pcs/set       | 11" x 11"       | 2 3/4" thick     |                  |                 |
| 1 pc/set        | 11" x 16 1/2"   | 2 3/4" thick     |                  |                 |

GrandStone

| Individual unit | 16 1/2" x 22" | 2 3/4" thick | 2.52 sf/pc | 100.8 sf/cube |

Embossed pavers are susceptible to scuffing and scratches during installation and snow removal. Protect the surface when transporting and use a urethane pad when compacting. Adjust the height of snow blowers and plows or use poly blade on plow edge.

ANDOVER 5511™

Our Andover 5511 paver offers a traditional shape scaled to complement the trend for larger paving units. Available as a separate unit, Andover 5511 is offered in three finishes:

- Andover 5511 C: Clefted and sculpted surface
- Andover 5511 CT: Clefted and sculpted surface then tumbled
- Andover 5511 Smooth: Traditional finish with minimal chamfered edges

Andover 5511 may also be utilized as a border course for our Andover Collection.

Dimensions and Coverage
All Styles 5 1/2” x 11” 2 3/4” thick 2.38 pcs/sf 100.84 sf/cube

Andover 5511 may be installed as a traditional interlocking concrete pavement or, with proper design and use of open-graded aggregates, a permeable pavement for a solution to stormwater runoff (see page 40).

Embossed pavers are susceptible to scuffing and scratches during installation and snow removal. Protect the surface when transporting and use a urethane pad when compacting. Adjust the height of snow blowers and plows or use poly blade on plow edge.
Strong, traditional and sophisticated describes our Boston Colonial Pavers which are timeless in style and appearance. This classic shape can be placed into a variety of laying patterns and continues to be a popular choice for walkways, patios, driveways and more. Boston Colonial Pavers... true New England style!

FEATURES

- Classic rectangular shape
- Traditional Finish
- Available in a wide variety of traditional New England colors
- Patterns include classic 45° and 90° herringbones, running bond, parquets and basketweaves

EXPRESS YOURSELF

Color is the number one reason why more architects, professional landscapers and homeowners choose Ideal. And it’s no wonder. We saturate our pavers top-to-bottom with pure oxide pigments and give you a wide range of eye-catching colors inspired by the deep, rich hues authentic to New England’s heritage.

While we feature a large selection of colors, we encourage you to explore your creativity by designing your own custom blend, unique to your style, preference and color scheme, by intermixing two or more colors from our palette to enhance and complement your home.

We show a few of our most popular Inter-Blend color combinations below. To further expand your creative options, combine different percentages of the colors and blends. While we show our popular Boston Colonial Pavers to demonstrate some of the options, you can use our Inter-Blend colors with almost any of our paver styles, as noted in picture captions throughout our catalog. Your possibilities are almost limitless!

INTER-BLEND COLORS

Huntington blend - 30/70 quarry to beacon hill blend
Adams blend - 67/33 beacon hill blend to clay red
Gloucester blend - 50/50 quarry to vineyard blend
Charles River blend - 67/33 clay red to autumn blend
Berkley blend - 85/15 beacon hill to quarry blend
City blend - 60/40 clay red to beacon Hill blend

MOSAICS, PATTERNS AND BANDS

Accent your pavement by using contrasting colors, styles or different surface textures along the borders and bands within the pattern to define boundaries and zones. Make a bold statement with mosaics and inset designs!
YANKEE COBBLE™

The old-world look and feel is unmistakable. Cobblestones are as authentic to New England as the sailing ships that carried them as ballast across the Atlantic. With a wide array of shapes and colors, you’ll have no trouble putting your personal touch on the classic look of natural stone.

FEATURES

- 5 shapes/sizes combine to form over 40 patterns
- Circle Pak allows you to integrate circles into your design
- Traditional Finish with pressed edges and dimpled surface
- Mix-n-Match Packaging - Choice of shape, size & color

*The circle pak creates a circle from 32" to 108" in diameter.

To avoid scuffing the surface when compacting into place, this paver must be protected by a layer of sand, geotextile fabric or a urethane pad attached to the plate of the compactor.
Uni-Decor®

Uni-Decor combines the shapes of an octagon and square in one paver to form a bold look that stands out from the crowd. With an elegance that appeals to both contemporary and traditional settings, it’s no wonder that Uni-Decor remains a favorite among experienced designers.

**FINELINE™ SERIES**

If a sophisticated, formal appearance suits your style, look no further than our FineLine Series for a beautiful pavement with a refined look. Unlike pavers with chamfers, FineLine is molded with square edges that fit tightly together with a nearly seamless transition paver to paver. The non-beveled surface accommodates foot traffic, wheelchairs, scooters and roller blades.

Vineyard Blend and CurbStone™ - Vineyard Blend
Vineyard Blend and Ancestral™ Wall - Vineyard Blend
Step back in time when turn-of-the-century houses were distinguished by thoughtful attention to detail. The warmth and beauty of Georgetown Colonial Pavers evoke the appearance and character of vintage brick with kiln-fired tones authentic to New England’s heritage.

**FEATURES**
- Classic rectangular shape
- Drum-Roll Tumbled Finish
- Flip ‘n’ Place dual surface - can be laid with chamfer side face up or face down or in any combination
- Blends can be intermixed to replicate “preservation colors” of “turn-of-the-century” brick
- Patterns include classic 45° and 90° herringbones, running bond, parquets and basketweaves

CONCERNED ABOUT THE ENVIRONMENT?
So are we. Our Permeable Pavers are a stylish and practical way to go green.
Why Permeable Pavers?

- Capable of infiltrating 100% of rainfall
- Pedestrian friendly
- Choice of styles, colors and patterns
- Easy to clean and maintain
- Firm, stable and slip-resistant
- Strong as our other high-strength pavers
- Suitable for:
  - Walkways
  - Patios
  - Driveways
  - Heavy-duty pavements
- Winter friendly
  - Snow-plow safe
  - Allow snow melt to drain
  - Minimize icing and deicer use
- Summer friendly
  - Unaffected by heat
  - Do not get soft or deform
- Factory-made and ready to install year-round
- Contribute to groundwater recharge
- Rainwater harvesting
- Qualify for LEED® Credits
- Mitigate runoff, TSS, pollutant loads and capture “first flush”
- Cost-competitive

PERMEABLE ECO-FRIENDLY PAVERS

THINKING GREEN?

It is important to consider our impact on the environment. If you are environmentally conscientious, or perhaps facing zoning restrictions limiting the amount of hard surfaces you can use on your property, our eco-friendly permeable interlocking concrete pavers could be the right choice for you.

Our Aqua-Bric, Eco-Stone and 5511 pavers create a strong, durable pavement with a series of openings that allow water, even heavy rainfall and snow melt, to drain through the surface and pass through an open-graded stone base where contaminants in the water are naturally filtered out before the water infiltrates into the soil below.

In contrast, rain and snow falling onto your patio, walkway, driveway and lawns pick-up pollutants and carry them into nearby catch basins and storm drains. Unfortunately, these types of drains do not lead to treatment plants. Instead, they convey contaminated water directly to streams, lakes and rivers, and ultimately into coastal waters affecting aquatic life, fishing, swimming and even our drinking water.

Permeable pavers – a built-in solution to managing stormwater pollution with all the benefits, style and character of our traditional pavers. Contact us for more information, including easy to follow step-by-step installation instructions. Pavers by Ideal... making products that lessen our impact on the world around us and helping build a cleaner and more sustainable future.
AQUA-BRIC®

Aqua-Bric provides classic New England-style with the added benefits of stormwater infiltration that’s good for the environment. Looking good never felt so eco-friendly.

- Classic rectangular shape
- Patterns include classic 45° and 90° herringbones, running bond and basketweaves

AQUA-BRIC IV™

Aqua-Bric IV offers the pedestrian-friendly features of Aqua-Bric in a larger and thicker size that is suited for heavy-duty traffic loads found in parking lots, entrance drives and low-speed roadways and streets. Aqua-Bric IV is manufactured in the same colors as Aqua-Bric in a herringbone layout designed to take advantage of the economy of mechanical installation.

- Classic rectangular shape
- Traditional Finish
- Full-size stones with false joints seamlessly integrate with half stones creating an attractive and durable permeable pavement comprised of traditional shapes
- Manufactured with all four shapes included in a single layer

Dimensions and Coverage

| Aqua-Bric IV | 4 1/2” x 9” | 3 1/8” thick | 11.25 sq/layer | 78.75 sf/cube |

SHAPES

- 9 units per layer
- 16 units per layer
- 8 units per layer (4 full stones w/halves 4 false-joint stones w/halves)
- 16 units per layer
Our Andover 5511 paver may be used as a highly-effective permeable interlocking pavement when installed with open-graded aggregate for a stylish solution to stormwater runoff. All three styles of Andover 5511 can be used in permeable applications:

- Andover 5511 C: Clefted and sculpted surface
- Andover 5511 CT: Clefted and sculpted surface then tumbled
- Andover 5511 Smooth: Traditional finish with minimal chamfered edges

Dimensions and Coverage

| All Styles | 5 1/2" x 11" | 2 3/4" thick | 2.38 pcs/sf | 100.84 sf/cube |

*Laboratory results with #9 stone using ASTM C 1781 Test Method for Surface Infiltration Rates of Permeable Pavers

Embossed pavers are susceptible to scuffing and scratches during installation and snow removal. Protect the surface when transporting and use a urethane pad when compacting. Adjust the height of snow blowers and plows or use poly blade on plow edge.
**ECO-STONE**

This original eco-friendly paver continues to maintain its 1st class status with a look of cobblesets while capturing and filtering rainfall into the ground below through the openings in the surface. It is New England-style and ingenuity at work, making your home and the environment a better place to live. Its 3 1/8” thickness can easily support the weight of cars and trucks making it an excellent choice for driveways, parking lots and low speed roadways.

- Traditional Finish (Drum-Roll Tumbled Finish available as “Made-to-Order” item)
- Patterns include classic 45° and 90° herringbones, running bond, parquets and basketweaves
- Available in Beacon Hill Blend and Vineyard Blend

**Dimensions and Coverage**

| Eco-Stone  | 4 1/2” x 9” | 3 1/8” thick | 3.55 pcs/sf | 78.87 sf/cube |

---

**TURFSTONE™**

Our Turfstone concrete grid paving slab features a flat, “lattice” style surface with apertures that can be planted with grass or filled with stone to infiltrate stormwater. Turfstone accommodates pedestrian and vehicular traffic and is suitable for driveways, overflow parking, access lanes or anywhere “greenspace” pavement is desired. Properly installed, Turfstone is “snow-plow safe”. Turfstone also can be used on slopes and swales for erosion control.

**Dimensions and Coverage**

| Turfstone  | 23 5/8” x 15 3/4” | 3 1/8” thick | 2.6 sq ft/pc | 145.6 sf/cube |

---

**SHAPE OPTIONS**

WALLS WITH STYLE

Our beautiful wall systems create landscape, retaining, free-standing and sitting walls that complement any setting.
CREATE WALLS WITHOUT BOUNDARIES.

Let Walls with Style™ by Ideal shape your landscape.

With our wide variety of natural looking walls, you can shape your outdoor space to suit your needs and style. Level a slope to add more space for play, outdoor living or additional parking... transform your yard with terraced walls and stairs that sculpture the landscape... accent patios with free-standing seat walls, pillars and pergolas... create raised planters blooming with flowers that provide focal points in the landscape.

Our walls help you make a statement. Select the style, color and pattern to suit your taste and create an area with your own personal signature that you will enjoy for decades to come.

- Strong, dense and durable!
- Designed to withstand New England’s winter climate and provide years of lasting beauty and performance.
- Environmentally safe - they won’t rot or decay.
- Virtually maintenance-free
- Easy to install - Sit on gravel base and stack together. Mortar or concrete is not required.
- Affordable - The dry stack feature allows improved productivity and lower costs.
- Beautiful - Our styles create serpentine, convex, concave, terraced, freestanding, double-sided and sitting walls that compliment the landscape.
Roman Pisa Wall and Coping - Quarry Blend
Granite steps
Looking to create an antique, weathered feel for your next wall project? The distinctive rich texture of Roman Pisa captures the rustic beauty and charm of hand-crafted stone walls built by the New England skilled craftsmen of yesteryear. Its time-tested appearance makes a Roman Pisa wall fashionable in any landscape setting.

**FEATURES**

- Full component system creates a variety of ashlar patterns, as well as running bond combinations
- Drum-Roll Tumbled Split Face Finish
- Tongue and groove connection
- Planter height to tall commercial walls

GravityStone combines the simplicity of easy-to-handle dry stack units with the superior earth retention capabilities of crib wall structures. As a result, GravityStone walls can be built as high as 8' without the use of geogrid, saving time, labor and space.

FEATURES
- Face - Trunk - Anchor components form a “single-cell” assembly 32” deep
- Best choice for “cut” walls and sites with little or no room for grid
- Build straight or curved, as well as free-standing, double-sided walls
- Planter height to tall commercial walls

FAT FACE

Fat Face is ideally suited for commercial, municipal, and residential walls where strength and durability are needed. Its one square face-foot design is among the best at providing fast, efficient wall construction.

If you're looking to add flexibility and elegance to your outdoor hardscape, look no further. Pisa2 is a full component system with a textured straight face that complements any setting with a simplicity that gracefully conforms to the natural contours of the landscape. Subtle chamfers molded into its face create a wall with distinct horizontal lines that accentuate the shadows of the day's changing light.

**FEATURES**
- Design classic style walls, curves, terraces and tiers
- Split Face Texture
- Planter height to tall commercial walls

**Pisa2® with Universal Coping - Granite Gray**

**Pisa2® with Revers-a-Cap Coping - Granite Gray**
ANCESTRAL™ WALLSTONE

Nothing quite suggests the look of a handsome dry-laid stone wall as our Ancestral WallStone. As a free-standing wall, Ancestral WallStone is a smart choice for defining outdoor living spaces adding dimension and seating. Use the 3" high and 6" high sets in a simple 1:1 ratio or mix them in combinations for impressive ashlar patterns.

FEATURES
- 3" and 6" high - in 3 lengths (tapered)
- Drum-Roll Tumbled Split Face Finish - double-sided
- Tapered design - straight, curved and serpentine walls
- Free-standing walls - sitting walls - raised planters or low-height retaining walls up to 24" high

SHAPE OPTIONS

3" high set: consists of 3 pcs: (16" x 14") (14" x 12") (12" x 10")
- 10" deep
- .83 sf/set
- 25 sf/cube

6" high set: consists of 3 pcs: (16" x 14") (14" x 12") (12" x 10")
- 10" deep
- 1.66 sf/set
- 25 sf/cube

COLOR OPTIONS

OLDE BOSTON™ WALL

Versatile is the word that best describes our Olde Boston Wall. The modular dimensions of the single unit allow placement in four different orientations and the ability to create a variety of patterns, including running bonds, random and ashlar for design flexibility. It can be used for a wide variety of applications such as garden walls, seat walls, planter walls, barbecue islands, pillars and columns.

FEATURES
- Drum-Roll Tumbled Finish
- Pillars - free-standing walls - raised planters or low-height retaining walls up to 24" high

Dimensions and Coverage

Olde Boston Wall | 4"h x 12"w x 8"d | 28 lb | 3.1 pc/sf | 34.8 sf/cube

If used as stair treads that will be subject to deicing chemicals, coping units must be treated with a non-film forming, penetrating-type sealer. See your local Ideal Dealer for more information.
STEP OUT WITH STYLE
Our Steps, Stairs and Elevations come in a variety of pleasing styles and colors.
Stonewall™ Walls, Steps and Coping - Granite Gray

Boston Colonial Pavers® - Vineyard Blend

MillStone™ and Roman Pisa® Walls, Steps and Coping - Vineyard Blend
TAKE YOUR OUTDOOR DESIGN PROJECT TO THE NEXT STEP

It’s possible with Steps, Stairs & Elevations by Ideal.

For a look that truly turns heads, our steps and stairs provide a continuity that completes your vision. Their natural look and feel rivals that of stone steps, but at a surprisingly affordable price. Their durability ensures a lifetime of enjoyment from your outdoor sanctuary. Whether your steps lead to a separate terrace, a lush garden, or even back to the comforts of home, Ideal has the steps and stairs to accent your project beautifully.

- Won’t rot or decay
- Mortarless construction accommodates settlement without distress in the wall, permits better drainage and provides resistance to freeze-thaw damage
- The look and feel of natural stone without the high price tag
- Easy to install
ROCKPORT™ STEPS

The classic look of weathered-hewn stone can be found in our Rockport Step Collection. Available in several sizes and shapes, each step is cast in molds that carefully replicate the textures, colors and detail of natural stone. Choose either a 5 ½" or a 7" rise. Each offers consistent size, height and texture, saving time when selecting and installing. Available in Fieldstone Blend.

CHELMSFORD™ STEP

Our Chelmsford Step is a durable precast concrete unit molded with the cleft and contours found in natural stone steps. Chelmsford Step is available with a choice of two faces in a single unit. One side reproduces the traditional style that stone masons achieved by using “feathers and wedges” to split the face, while the opposite face features a more contemporary rock-face. Available in Stone Grey and Mohave Tan.

OUTDOOR LIVING
Create outdoor rooms that are the perfect gathering spot for family and friends.
THE EXTRA ACCENTS THAT TAKE A PROJECT FROM “GREAT” TO “WOW”

It’s possible with Elements with Style.

Even though our walls and pavers look beautiful on their own, it’s the special touches that you add that can really help define your unique personality.

Create accents to your paver patterns with our coping and edging pavers. Our classic pillars provide definition and form to your hardscape. Become the master of entertainment with an easy-to-install BBQ surround that any chef would be proud to call their own.

Whether your dream is to design the perfect outdoor kitchen, create a grand entrance to your driveway, or spend cool nights outdoors by the fire, there are ideal elements for every application, taste and style. Explore which Elements with Style will help make your outdoor project shine.

- Blend perfectly with our paver and wall styles and colors
- Provide accents that complete the look and add value to your home
**FIRE PIT KITS**

Enjoy the warmth and charm of a glowing fire with family and friends. Our affordable “Block-n-Ring” Fire Pit Kits are compact, solid in construction and easy to build. There is no guess work! The kits come with the block in rich, earhtone colors and steel inserts in either a square or round configuration. Choose from three styles, or you can customize our fire pits by adding banding, coping, cooking grates or gas inserts.

### SCAPESTONE™ FIRE PIT FEATURES
- ScapeStone - 30” inside diameter/42” outside
- Heavy-duty steel round frame insert

- Includes CastStone™ counter (optional granite top available)
- Olde Boston™ Wall - see page 50 for a choice of colors
- Sized to fit an opening: 31 1/2" wide x 35" high x 24" deep

Colorfalls
Incorporate the beauty of water and light into our popular landscape wall styles with Atlantic’s Colorfalls™, the first lighted weir specifically designed for water features. Colorfalls will add simple, elegant beauty to your outdoor space, day and night.

FEATURES
- Available in clear, colored, or color-changing LED light bars
- Light bars available in three widths - 12", 24" and 36"
- Kits include basin, pump, and built-in plumbing recesses
- Easily incorporated into our popular walls and pavers with minimal cutting
MEETING YOUR EXPECTATIONS

As you consider a new walkway, patio, driveway, landscape wall, or other hardscape project, you have lots of choices as to which product and color to select. It’s an important decision. After all, it’s an investment that should meet your expectations for years to come. So we thought it would be helpful and responsible to pass along some sound advice.

What should be realistic expectations for your pavement or wall? Our pavers, walls and garden products are commercial grade – unlike similar products found in large home improvement stores. Ours are factory made and delivered in ready-to-use condition that meets the highest industry standards. This means they are strong, dense and durable. Properly installed, your pavement and landscape walls will provide years of lasting beauty and dependable performance!

Ideal has made and sold hundreds of millions of paving stones and countless landscape walls since 1975. In fact, no other manufacturer has sold more in New England than Ideal. Our name has become synonymous with quality, service and reliability. While some manufacturers would lead you to believe their pavers and walls will never change in appearance, we believe in a more realistic position. After all, over time Mother Nature takes her toll on everything! We keep this in mind in our design. So while normal wear and tear and exposure to the elements are part of the natural aging process, you can expect the color tones, shape and pattern of Ideal products to remain for a lifetime!

For additional information, we recommend ICPI Peak Performance – a Maintenance Guide for Consumers published by the Interlocking Concrete Pavement Institute. It contains a wealth of information that will help keep your pavement in tip top shape and can be found on our website.

COLORS: OUR BEAUTY IS MORE THAN SKIN DEEP

Our pavers and walls are saturated with rich colors...top-to-bottom...not just at the surface. Because color is throughout, chips, dings and scratches, which are inevitable, quickly “blend-in” and are hardly discernible. Don’t be fooled by gimmicks that are nothing more than a thin veneer.

After all, our products are a lifetime investment.

OUR PROCESS: IT’S ONLY NATURAL

Our pavers and walls are made with natural ingredients. Look closely and you will find a unique character to each and every paver and wall. In fact, no two look exactly alike. You will see subtle variations in color and texture for a truly natural appearance. Our color blends contain 2 or more pigments to achieve a random variegation and even our solid colors have nuances in tone and hue. Please remember that, unlike a painted or stained surface, concrete products have inherent texture and shade variations. The product you receive may vary in color and texture from samples. Cubes of product may contain a different percentage of colors and textures than shown in this catalog. As you would with dye lots in fabric and carpet, purchase your pavers and walls all at one time. When installing, product should be selected randomly from several cubes to obtain uniform color distribution.
TUMBLED OR TRADITIONAL: WE COME CLOSE TO FOOLING MOTHER NATURE

We manufacture our pavers and walls with a choice of finishes. Choose pavers with a traditional surface or ones with the look and feel found in vintage pavements. From our wall collection select styles with a rugged split face to our tumbled finish that resembles handcrafted walls of yesteryear.

To faithfully reproduce the color, texture and durability of vintage stone, we use an innovative technology that enables us to impart an “old world” charm using a unique factory process that antiques the surface, while preserving the inherent structural stability. We call it Genuine Drum-Roll Tumbled, and although it takes more time and effort than automated processes used by other manufacturers, it creates pavers and wallstones that truly capture the nostalgia of time-honored colors and textures of natural materials.

SNOW, ICE AND DEICERS

Our pavers and walls are more than beautiful. They have the durability to withstand New England’s harsh winters and, when properly installed, snow removal is no problem... either by shovel, snow blower or a plow using a rubber or poly plastic cutting edge.

Our pavers have a surface that is slip and skid resistant even when wet. Ice, on the other hand, can be slippery, particularly as it melts, and common sense should be used to prevent slips and falls. We recommend sand for traction. It can be applied liberally and as often as needed. Sand provides a visual reference of its presence and can be felt underfoot as a tangible medium aiding foot traffic. Clean, untreated sand has no corrosive effect on steel, metal, clay brick, cast-in-place concrete or concrete pavers and it can be swept into the paver joints or removed by conventional sweeping or vacuuming.

Concrete pavers are exceptionally robust in resisting the effects of deicing chemicals. We have manufactured pavers that have been exposed to salts for over 35 years! Nevertheless, chlorides can be harmful to concrete, steel and other building materials depending on the type, concentration and frequency of application. If using a deicer, we recommend a NaCl sodium chloride. We caution against the use of other types including products that contain a blend of chemicals.

EFFLORESCENCE

A white haze known as efflorescence sometimes appears on the surface of concrete and masonry products. Technically known as calcium hydroxide, it can come from a number of sources and appears as a white film when carried to the surface by moisture. It may appear randomly or in certain areas and is more pronounced on darker colors. The good news is efflorescence does not affect longevity or structural performance. Although unsightly when it first appears, in many cases it is scoured off during installation, or if desired, it can be removed using specialty cleaners. Otherwise, it will typically lessen, or dissipate, over time with rain, snow and wear.

Because efflorescence can be a natural by-product of cement hydration, its presence is not indicative of a flawed or defective product. As do all other manufacturers, we disclaim it from our warranty.

PROFESSIONALLY INSTALLED OR DO-IT-YOURSELF?
WE CAN HELP!

Deciding often depends on the size and scope of the work, as well as how ambitious you are. While small walks may be a weekend project, others will take far longer. Your authorized Pavers by Ideal dealer can recommend contractors suited for your project. Be sure to check references, visit projects they have installed, make sure they have insurance and... get it in writing!!

Visit our website www.idealconcreteblock.com for more helpful tips on hiring a contractor. For the ambitious DIY-er we have easy-to-follow instructions that will guide you step-by-step for beautiful results.

A PICTURE IS WORTH A THOUSAND WORDS

How true the saying is that a picture conveys an image that words can never describe. That is why we use pictures generously throughout this catalog to depict our products. And yet many factors influence one's perception of images and colors, and they may appear different from one photo to the next. Angle of light and time of day greatly affect perception, and colors printed in ink cannot exactly match the actual concrete product colors. The point we are trying to make is the images shown in this catalog are only the first step in selecting colors. Once you have narrowed your choices, obtain actual samples from your dealer or contractor. View them in the setting where they will be installed before making your final selection.
Here at Ideal Concrete Block, concrete is not just in our name, it’s part of our legacy. For over 90 years, we have manufactured the finest concrete and masonry products in New England and have developed a reputation based on three sound principles:

**QUALITY**
All of our concrete products are made with a cement rich, dense concrete mixture formulated to withstand the Northeast’s harsh winter climate. As native New Englanders, we know firsthand that our customers set the bar high for quality and we strive to meet and exceed their expectations across all aspects of our product lines.

**SERVICE**
Selling quality products means offering service and support to back it up. That’s why Ideal maintains an extensive network of Authorized Dealers throughout the Northeast whom we carefully select based on shared core values and a commitment to customer service. Many offer extensive product displays where you can see our products and their trained staff can answer questions you might have, place your order and arrange for prompt delivery to make sure your landscape project is a success from start to finish. We want nothing more than to ensure years of enjoyment from your concrete product purchase, and we stand ready to deliver with a wealth of knowledge, experience and assistance at every turn.

**RELIABILITY**
We are here for our customers before their purchase, during the installation and even years down the line. Our goal is to offer you a range of materials, styles and options that will help you create a truly unique hardscape and to help you make choices that suit your personal needs. Ideal stands behind every product we make and sell with our Lifetime Warranty and our name as testament to just how reliable we think our products are when properly installed and maintained.

**Quality. Service. Reliability.**

**Thank you! The Burgoyne Family**
